(2)	Current number of patients in medical treatment (serious: 1, moderate/mild: 2,743) As of Apr. 12	Number of People	2,744 (-608)
		Per 100,000 people	279.1 (-61.8)

Note 1) The population of Chiba City is 983,211. (As of Apr. 1, 2021)

Note 2) Above statistics except for 1(1) and 2(1) complies with the definition of the Government of Japan.

## Reference ★ Latest weekly statistics in Chiba Prefecture

			★ Prefectural Data
(1)	Classification of infection level (※)	As of Apr. 12	Level 2
(2)	Rate of occupancy of hospital beds reserved for patients in Chiba Prefecture (with comparison to the previous week)	As of Apr. 12	24.7% ( -1.5 points )
(3)	Rate of occupancy of hospital beds reserved for serious patients in Chiba Prefecture (with comparison to the previous week)	As of Apr. 12	6.2% (-7.1 points)

※ This is the degree of the infection severity and shortage of medical care capacity in Chiba Prefecture as evaluated by the criteria set by the prefecture.

Level 2: The condition in which the number of new infections is trending upwards and there is an increasing load on medical care for COVID-19 infections and for general medical care, however, adequate medical treatment to those in need is made possible by continually increasing the number of available hospital beds.

(Chiba Prefecture website)

Please refer to the Chiba Prefecture website for information on the above items, medical infrastructure in the prefecture, and criteria for infection evaluation.

 vaccination)

# Requests from the Municipal Government to the Residents (Apr. 14)

Although the number of newly infected patients is generally remaining at the same level, the upward trend is seen in the number of the young patients in their 20's and under. Please continue to relentlessly implement infection prevention measures thoroughly.

- ✓ Please continue to follow basic infection prevention measures while avoiding “the three C’s”.

- ✓ Please refrain from going to places where infection risk is high such as crowded places.

- ✓ If you are elderly or have chronic diseases, please make efforts to reduce risks for infection, such as only meet in person with a few familiar people.

- ✓ When you dine out, please enjoy a meal with the number of people that can ensure social distancing, with up to four per table in principle. Also, please continue to take note of the following:

Stay for a short time

Dine silent

Wear a mask during conversation

Sanitize hands

No heavy drinking

No loud voices

No sharing

※please use restaurants with Certified, or Confirmed status.

- ✓ If you feel even just a little unwell, e.g. fever or tiredness, please refrain from going out and visit a medical institution after consulting by phone in advance.

Flow of the consultation

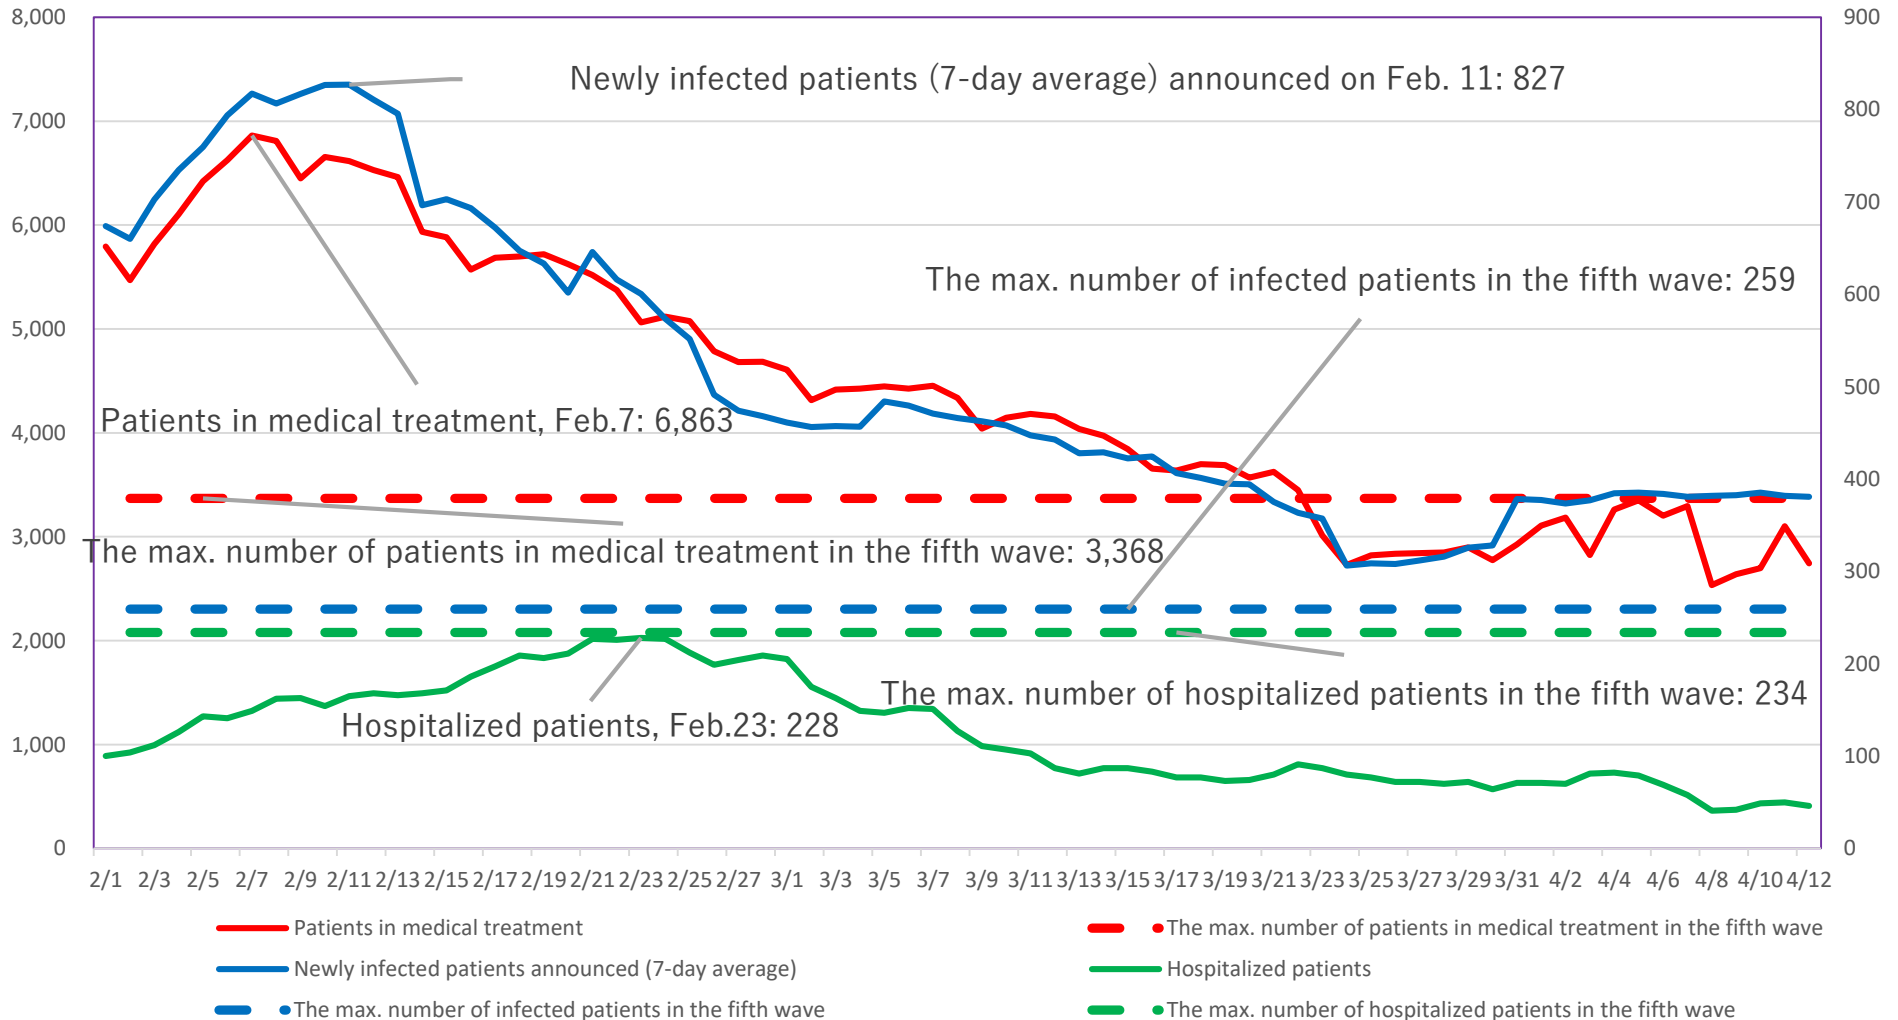

(Chiba City Home page)

# Changes in the official tallies of infected patients in Chiba City, in terms of the actual daily number on the day of announcement (7-day average)

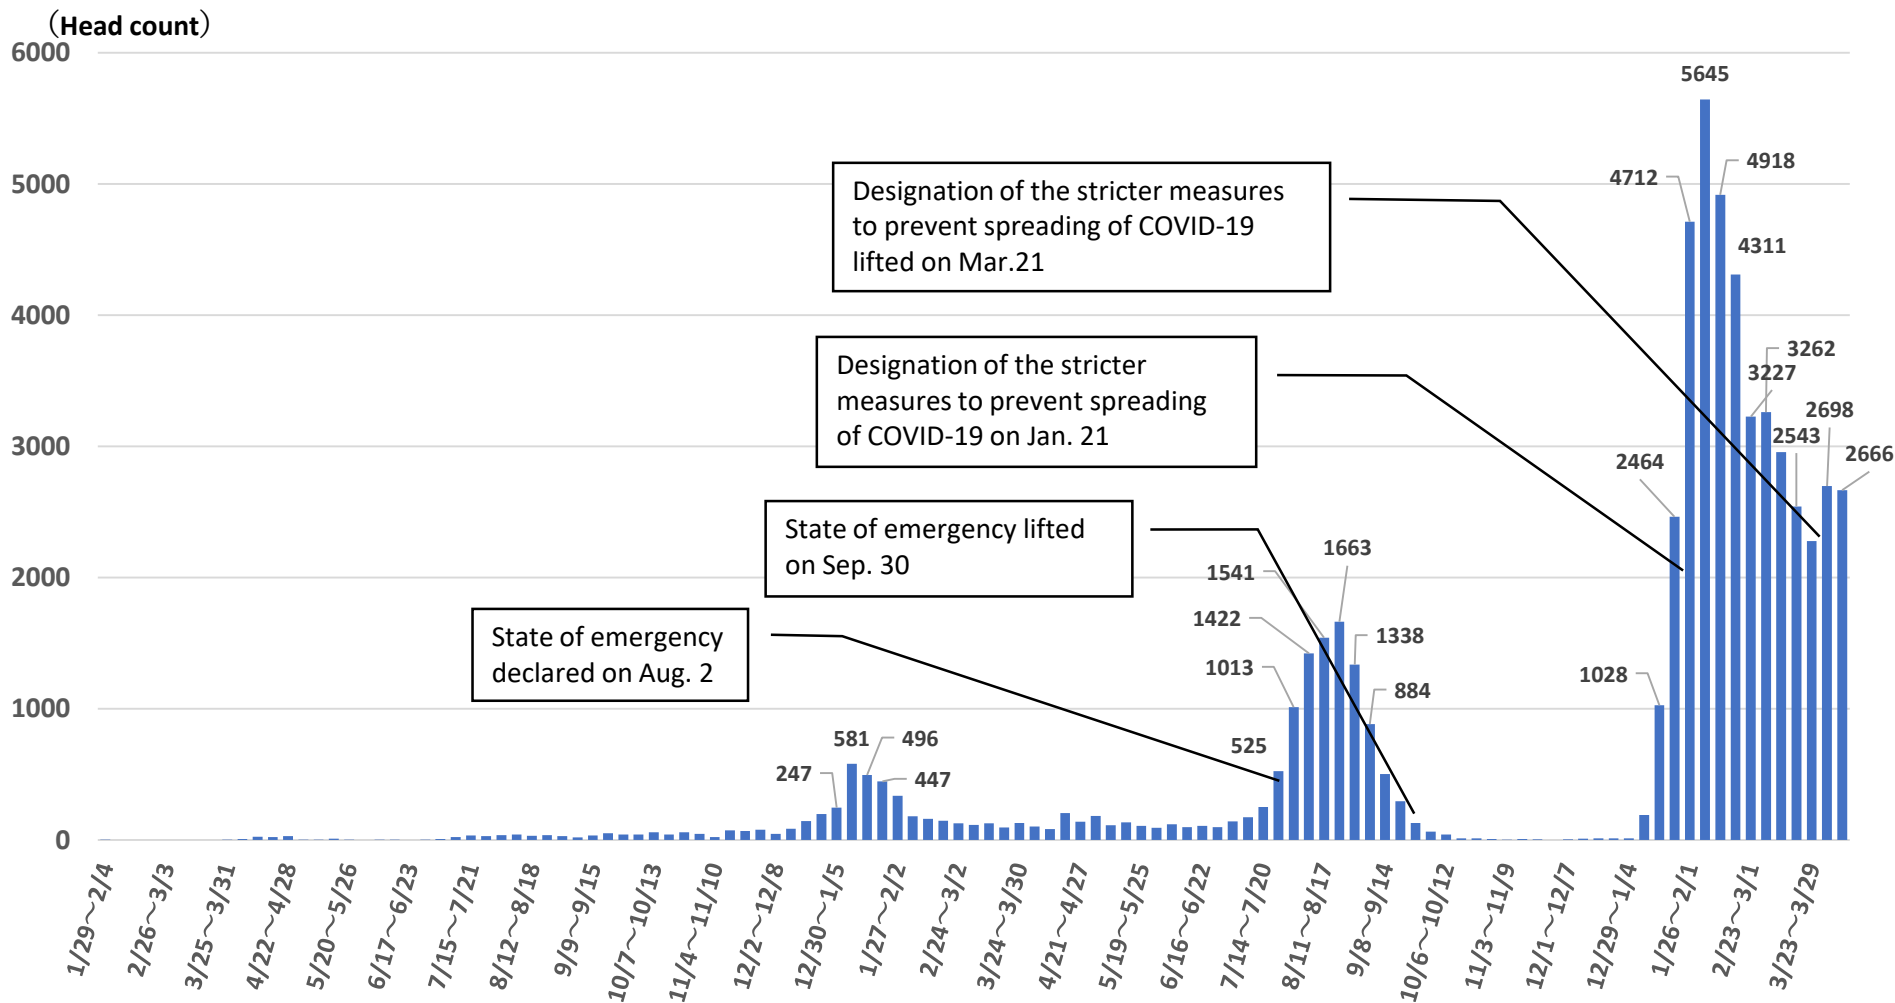

As of Apr. 12

# Current Status of Newly Infected Patients in the City (Date of announcement)
